

# DADE PREP ACADEMY

## FUN AT THE FROST MUSEUM

At Dade Prep Academy, the educational development of our students is very important. From time to time, students need to step out of their routines and take their learning outside the classroom. This month, DPA students went on a field trip to the Phillip & Patricia Frost Museum of Science to further enhance their educational development in a fun and engaging way.

Our students learned about the importance of a healthy marine ecosystem with a huge aquarium that features 3 different environments. The aquarium also exhibits a recreation of the beautiful South Florida underwater world. DPA students also enjoyed the planetarium's "Black Holes: The Other Side of Infinity," a short film that explains the amazing phenomenon of black holes.

## COGNIA CONFERENCE

Earlier this month, our DPA team had the opportunity to attend the Cognia Conference. Topics such as college success, post-secondary options, teacher retention, along many others were covered in depth during this year's conference. They also had the opportunity to share with other schools and interact with the main speakers.

## DEVELOPING HEALTHY LIFE SKILLS

Fit Kids of America has been a longtime partner of our school, and came by to show our students useful life skills.

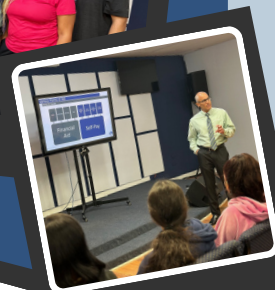

The students had the opportunity to learn how to develop healthy interpersonal relationships and money management techniques in this month's visit from Fit Kids of America. Without a doubt, these skills are very important to have, and this is another way in which Dade Prep is enhancing the educational development of students.

We are beyond grateful to the beautiful Fit Kids of America family, as always it is a pleasure to welcome them in our home.

## COLLEGE TIPS WITH MDC

A successful transition from high school to college is very important, but at the same time, it can be a bit intimidating and difficult, to say the least. This is why at Dade Prep Academy; we strive to bring firsthand college information to our students as often as possible. Our goal, is for our students to have a seamless transition while providing them with all the resources necessary to help them achieve their post-secondary educational goals.

Thanks to our friends at Miami Dade College and our career counselor, our students learned about the different financial aid options available for them, so they can pay for their secondary education.

# LET'S CELEBRATE TOGETHER!

On October 19, Dade Prep Academy had an amazing team-building event that included a tasty luncheon; made up of food from different countries, and a pumpkin carving contest, which gave our team members a sweet break from their daily routines and tasks.

Special shout out to our wonderful partners from Elijah Network and Revelation University for tagging along and joining in the fun.

# A VISIT FROM THE US. MARINES

Our school community was honored this month with a highly informative visit from the US. Marine Corps. DPA students got an inside look at life as a US. Marine, as they learned about their duties, responsibilities, and what it truly means to be part of the US. Marines. Students also learned about the benefits of become a US. Marine and steps required to join them in case they're interested upon their high school graduation.

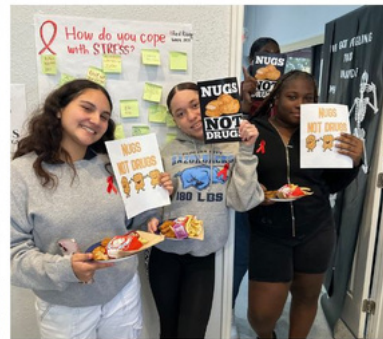

# RED RIBBON WEEK AT DPA

Red Ribbon Week is a special campaign aimed at bringing awareness, advocacy, and resources for drug use prevention in schools and communities around the nation.

Dade Prep hosted multiple activities for the students in an effort to amplify the campaign's message. Some of the activities included: a Drug Abuse Resistance Education (D.A.R.E.) session hosted by an MDPD officer, a "How to Cope with Stress" speaking session, bingo games, among other activities.

# MEET OUR STUDENTS

## HISPANIC HERITAGE MONTH

let's  
TALK

I'm proud to be a person that is from Honduras, and thanks to that I have lived a lot of different experiences. I learned a beautiful language which is Spanish; also, being a "Hondureña" in the United States gave me the opportunity to share my culture with people from different countries of the world; it also taught me more about Latin-Americans and it allowed me to teach some Spanish to North Americans. I miss my country a lot, its food, and especially my family, but I'm happy to be here, now I have met a lot of people, I have visited tons of new places and I will have new opportunities.

LINDA Y

I'm a proud Venezuelan because I am in love with my culture, the typical Venezuelan music, and the delicious food! I love that people from my country are hardworking and loving. Also, I'm proud and happy to say that my country has the World's tallest uninterrupted Waterfall (which is the Angel Fall). Speaking two languages (Spanish and English) has brought me many advantages since being a bilingual person gives you more growing opportunities and I'm just grateful of being in The United States.

CESAR O

Yo estoy orgulloso de ser Cubano porque para mi Cuba es el mejor país del mundo. Tiene hermosos paisajes, preciosas playas, las siembras de tabaco y caña son enormes y aún con todas las situaciones que puedan tener en el ámbito político, la gente se mantiene alegre y optimista.

MARLON M

## UPCOMING EVENTS
